

KRYPTONITE®

POWERSPORTS
Security Products

For nearly four decades, Kryptonite has maintained one focus – our commitment to making sure you keep what is yours. This catalog showcases how seriously we take our promise to you. From our cables to our toughest chains, we focus on bringing you quality products. In fact, many of our top end locks have achieved the highest ratings possible from independent European testing agencies.

We have fun creating and developing new ways to foil thieves at each turn. Knowing we've frustrated a thief makes us smile. We understand your joy comes from the adventure of riding and the unbreakable bond you have with your motorcycle, scooter or powersports vehicle. After all, we are out there riding with you. Enjoy the adventure.

When choosing a security product, consider these important things:

Materials

The ideal steel is hardened against cutting yet maintains flexibility. Kryptonite's 3t steel, MAX-Performance steel and Performance steel have this important quality and are used in all of our high end locks.

Design Features

The design of the lock you choose should provide functional security that is easy to use. Gimmicks are cool for 10 minutes until you can't get it on, or off, your vehicle in a timely manner.

Sizes

Choose the right shackle or link diameter to do the job properly. Live in a high crime area? Remember that more steel per inch means more security which means you keep your ride.

Services

Find out about a lock's past performance as well as the company's track record with customer service. Kryptonite proudly offers warranties, lifetime key registration, prompt key replacement and friendly, timely customer service. Anyone who knows Kryptonite, knows we stand behind our products and our customers.

Chain

Security

Lock up tip!

To protect against lift-away and tow-away theft, as well as roll-away and ride-away theft, always lock your vehicle to a fixed immovable object that is cemented or otherwise anchored to the ground. When using a chain, make sure the chain can not be lifted over the object your are locking to.

****Always wear*** *an approved helmet.*

Check all *lights and tires before going out for a ride.**

New York Legend Chain & New York Padlock

Hook-n-Loop fasteners to hold the nylon cover in place

16mm hardened MAX-Performance steel shackle

Massive 15mm round chain links made of 3t hardened steel

Disc Lock

Security

Lock up tip!

To protect against roll-away and ride-away theft place a disc lock on the rotor of the vehicle. For maximum security use a Kryptonite disc lock with a Kryptonite chain to prevent lift-away theft.

****Always lock*** your powersport vehicle anytime you are away from it — even at home. *

Cable

Security

Lock up tip!

Cable locks are deterrent theft only. They are to be used in low crime areas or as a secondary form of security. They can also be used to secure helmets, jackets and outdoor gear.

****Using two different locking methods is the most secure.****

HardWire™ Key Cables

The braided steel cable is more resistant to cut attacks

"I" keys insert smoothly

The fully reinforced lock head has an additional steel sleeve to provide even greater defense against attacks. It is true steel protection

The TALON system allows for a 3-point retention of the locking pin, adding to the lock's security

High security disc-style cylinder includes an anti-float feature preventing discs from moving and readjusting when in transit

Important Information

When choosing a powersports security product there are a few things to consider, including design features, materials used in the development of the lock, the correct size for the application and the services the manufacturer offers with the lock.

The information on warranties, European testing agencies, anti-theft protection offers, Key Safe, Combo Safe, key replacements, keyed alike and Kryptonite's security ratings are all included in this section.

Kryptonite's Security Rating

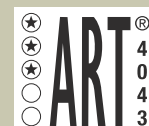

The Kryptonite Security Rating system compares all Kryptonite locks to each other on a scale of one to twelve. One is deterrent security only - twelve is ultimate security for high crime areas. This system will help you select, or recommend, the correct lock for the specific needs of your area.

Kryptonite & European Testing

Kryptonite expertly tests its locks with a variety of tools (bolt cutters, hack saws, hammers, prybars, grinders, hydraulic devices, etc.) and in a variety of ways many times over. This is not something that we take lightly and it isn't something that we do just one time. These locks are continuously put through a barrage of tests, including all known methods used on the streets.

We have even built equipment that far exceeds methods used on the street and test with tools or devices that are not commonly available, too. We also constantly analyze data from customer returns and work with law enforcement agencies.

If that isn't enough, Kryptonite holds more than 40 approvals at Sold Secure (UK), ART (NL), VdS (DE), N.F. (FRA), Classe SRA (FRA) and SSF (Sweden). These independent testing agencies attacked the products with every bit of malice the testers could throw at them and they still held up. They were subjected to strict real world testing such as cutting, pulling, picking and attack tests. We hope this brings peace of mind to our customers; it does to us and we use the products every day ourselves.

Classe SRA

Key Replacement, Key Safe & Combo Safe Programs

Register your key number, pre-set combination or resettable combination with Kryptonite for free! If you lose your keys or forget your combination, contact us and we'll be happy to provide your combination or replace your keys. With most of our keyed locks, you receive your first two replacement keys free.

If your lock is not part of the Key Safe Program, or if you have already received one free set, a nominal fee will be charged.

Call 781-828-6655 or visit www.kryptonitelock.com to register.

Anti-Theft Protection Offer

This offer is available on noted disc locks, U-locks and chains in the US and Canada. This offer will provide compensation for your vehicle up to the designated dollar amount just in case our product fails when used properly. We've offered out money for your piece of mind.*

Warranty Information

Lifetime Limited Warranty:

Schlage Lock Company, LLC, through its Kryptonite division ("Kryptonite") extends a limited lifetime warranty to the original user of the products manufactured by Kryptonite (the "Products") against defects in material and workmanship.

What Kryptonite Will Do:

Upon return of the defective Product to Kryptonite or its authorized distributor for inspection, free and clear of all liens and encumbrances and accompanied by the statement of defects and proof of purchase, Kryptonite will replace the Product.

Original User:

This warranty only applies to the Original User of Products. This warranty is not transferable.

What Is Not Covered:

The following costs, expenses and damages are not covered by the provisions of this limited warranty: (i) labor costs including, but not limited to, such costs for the removal and reinstallation of Products; (ii) shipping and freight expenses required to return the Products to Kryptonite; or (iii) any other incidental, consequential, indirect, special and/or punitive damages, whether based on contract, warranty, tort (including, but not limited to strict liability or negligence), patent infringement, or otherwise, even if advised of the possibility of such damages. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above exclusion or limitation may not apply to you.

The provisions of this limited warranty does not apply to Products: (i) that contain a Schlage® cylinder; provided, however the lock body is covered under this warranty (refer to specific Schlage Lock Company warranties for the cylinder); (ii) used for purposes for which they are not designed or intended; (iii) which have been subjected to alteration, misuse, abuse, negligence, or accident; (iv) which have been improperly stored, installed, maintained, repaired or operated; (v) which have been used in violation of written instructions provided by Kryptonite; (vi) which have been subjected to improper temperature, humidity, or other environmental conditions (i.e., corrosion); or (vii) which, based on Kryptonite's examination, do not disclose to the Kryptonite's satisfaction non-conformance to this warranty.

Additional Terms:

NO OTHER WARRANTIES, EXPRESS OR IMPLIED, ARE MADE WITH RESPECT TO THE PRODUCTS INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Kryptonite does not authorize any person to create for it any obligation or liability or additional warranty in connection with the Products. **Kryptonite's maximum liability under this warranty is limited to the purchase price of the Product.** No action arising out of any claimed breach of this warranty by Kryptonite may be brought by the Original User more than one (1) year after the cause of action has arisen.

How State Law Applies:

This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state.

For warranty and shipping instructions contact:

1-800-729-5625 (USA Only) or 1-781-828-6655

* Limitations and restrictions apply. See inside of product or website for details.
